PROFESSIONAL OVERVIEW

Experienced in developing practical developer tools and AI-focused utilities, with a strong interest in applying machine learning and AI-assisted development to solve real-world problems. Eager to contribute to an AI/ML internship by building reliable, data-driven solutions while continuously strengthening practical expertise in machine learning and intelligent systems.

WORK EXPERIENCE

Cyber Security Intern | Smarted Innovations, Remote DEC 2025

- Studied core cybersecurity concepts, including threat modeling and attack vectors theoretically.
- Learned industry best practices and fundamental security principles.
- Built a foundation for practical penetration testing and security tooling.

Machine Learning Intern | Codetech IT, Remote AUG 2025

- Built and evaluated regression and classification models using supervised learning techniques.
- Performed data preprocessing and feature engineering on kaggle datasets.
- Evaluated model performance and worked on improving prediction accuracy .
- Developed practical understanding of the complete machine learning pipeline, from raw data preparation to trained models.

EDUCATION

B.E. CSE (AIML) | Dr. Mahalingam College of Engineering and Technology ,Pollachi Expected Graduation: 2028
HSC II Year | Vinayakar Matric Hr Sec School ,Sivakasi Graduated: 2024

PROJECTS

Wordlist Generator

- Built a customizable wordlist generation tool for password auditing and CTF/security testing, supporting configurable word combination rules.
- GitHub : <https://github.com/subashcommits/wordlist-generator>

JSON to TOON Converter

- Developed a Python FastAPI tool converting JSON to TOON (Token-Oriented Object Notation), reducing LLM token usage and improving prompt efficiency for AI workflows.
- GitHub : <https://github.com/subashcommits/json-to-toon>

SKILLS

Project Management
API Testing

N8N Automation
FastAPI Backend

AI-Assisred Development
Video Editing
